DETAILED ACTION

In the response to the restriction requirement, Applicant elects Group III, claims 7-9 with the first formula in claim 7 as the elected species, without traverse. In the case if the claims in group III with the elected species are in condition for allowance, then the search is expanded to 13 non-elected species in claim 7.

Claim Rejections - 35 USC § 112

Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 is indefinite in the use of “ a crosslinkable oligomer or polymer” of the claimed formula Ic, in the case if $x=1$ and $z=0$, then said formula belongs to a monomer or compound.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-9 with the elected species are rejected under 35 U.S.C. 102(b) as being anticipated by Woo et al (6,169,163 or 6,255,449 or 6,362,310), they are of record on 1449.

In the formulae in claimed 7-9, if the claimed $x=1$ and $z=0$, the claimed $Z''=X$ or Z then the claimed formulae are read on formulae I and II in the Abstracts of these

references, or formulae X and XI (Cols 9-10 of references) where the claimed $Z'''=E$ and $n=0$, formula XII, Equations 4-6, second formula, Examples 27-28, corresponding to the second formula in claim 8 where the claimed $z=0$.

In the case if the claimed $z>0$, and in the claimed elected species, if $n=1$, R_1 =aromatic group, then the claimed formula is read on those in cols 43-44 of 6,169,163; cols 41-42 of 6,255,449 and 6,362,310 references.
